

# Marquis Sampson

## Software Engineer

New York, NY | [marquis4484@gmail.com](mailto:marquis4484@gmail.com) | [github.com/Marquis4484](https://github.com/Marquis4484) | [linkedin.com/in/marquis-sampson/](https://linkedin.com/in/marquis-sampson/)

## SOFTWARE PROJECTS

---

### Resume Website ([ms-portfolio-site.netlify.app](https://ms-portfolio-site.netlify.app))

- Focused on implementing user desired features such as a hamburger menu, carousel, and dark mode by utilizing React Hooks.
- Integrated a contact page that sends an email directly to the website's manager by utilizing an sdk and API data from the JavaScript email management website EmailJS.
- Utilized CSS, SASS and Flexbox in order to design and organize the main layout of the website.

### Mock Restaurant Website: Grand Buffet (<https://github.com/Marquis4484/grandbuffet>)

- Developed a modern single page application using vanilla JavaScript by integrating class based functions and javaScript ES6 modules.
- Utilized Node.js to manage client side routing so that each page of the website renders like a native application and so the content of each page renders dynamically.
- Designed the overall composition of the website in Adobe XD.

### E-commerce Website ([mock-ecommerce-site.vercel.app](https://mock-ecommerce-site.vercel.app))

- Deployed a functional e-commerce application with an easy to understand user interface that delivers fast and reliable page reloads by utilizing the React.js framework Next.js.
- Integrated Sanity's CMS in order to create schemas that allow a user to manage products within Sanity's content database.
- Implemented API data from Stripe in order to monitor payments, shipping rates, and checkout services.
- Utilized best-practices in React such as an advanced file and folder structure, React Hooks and React Context API.

### Music Player ([marquis4484.github.io/musicplayer](https://marquis4484.github.io/musicplayer))

- Created a music player with songs in an organized playlist using HTML, CSS, and Javascript.
- Designed the layout of the app based on the popular music streaming platform Spotify.

## WORK EXPERIENCE

---

### Stony Brook University

#### Ceridian Intern

Stony Brook, NY

6/ 2018 - 9/ 2018

- Assisted over 200 members on Stony Brook University campus and Stony Brook University Hospital in signing into a new payroll system.
- Participated in developing an instructional video in order to assist future members in logging into the new payroll system.
- Collaborated with team members and university-run committees in order to provide satisfactory service to every organization that visited Stony Brook campus over the summer break.
